ABSTRACT

This report is intended primarily for use by those who manage the Federal civilian work force. It is hoped, however, that it will prove useful to those without managerial responsibility who are concerned with the nature of and changes in the composition and structure of the Federal work force. The statistical data and analyses presented herein are directed at such questions as: (1) What is the size and geographic distribution of the Federal civilian work force? (2) What is the extent of minority group representation? (3) How is this work force paid? (4) How does the pay of its minority group employees compare with that of its non-minority group employees? (5) Is there upward mobility among its minority groups employees? To answer these questions, data are included for the first time for each minority group by department and selected agency, and the number of Standard Metropolitan Statistical Areas has been expanded from 41 in the 1967 study to 75 in the present one. Detailed tables showing minority employment data by grade are also included for the first time. (Author/JS)

FOREWORD

The Federal Government with some 2.6 million full-time employees is the Nation's largest employer. About one-fifth, 501,000, of these workers belong to one of the following minority groups: Negro, Spanish surnamed, American Indian, Oriental, Aleut or Eskimo. Of these 501,000 minority group employees more than two-thirds (344,800) are in professional, scientific or administrative and support type jobs -- commonly referred to as white-collar occupations. Approximately half of these white-collar employees are paid General Schedule (or similar) rates and half Postal Field Service rates.

During the past decade there has been a growing and accelerating emphasis on social as well as technological progress. To a limited extent, the impact of the dynamics of social change is reflected in this publication. While the gains cited herein give reason for encouragement, there is still much to be done. As Chairman Robert E. Hampton said in an earlier Press Release, "We must now see that these advances continue as the new EEO program administered by the Civil Service Commission achieves full momentum in all Federal installations."

It is expected that the information in this report, which supersedes the Preliminary Report of Minority Group Employment in the Federal Government, 1969 (SM 70-69A), will be of assistance to agencies in the development, implementation, and monitoring of their EEO programs.

Reports for earlier years are available for reference in the Civil Service Commission central office, as well as in Government depository libraries, and other libraries throughout the Nation.

This report was prepared in the U. S. Civil Service Commission's Bureau of Manpower Information Systems, Charles J. Sparks, Director, by the Manpower Statistics Division, John O. Coleman, Chief.

ACKNOWLEDGMENTS

The Project Manager for this report was Ronnie H. Byers, Manpower Analyst. Contributors to its preparation and review were: George F. Mills, Irene E. Ferrell, and the Statistical Processing Section.

INTRODUCTION

In August 1969, President Nixon issued an Executive order prescribing new directions for the Government's Equal Employment Opportunity program. The main thrust of that Executive order is to facilitate achievement of the "full realization of equal employment opportunity in each executive department and agency through a continuing affirmative program." In a memorandum to agency heads directing them to "cooperate fully in this urgent undertaking and move forward energetically toward the new program goals" recommended by Civil Service Commission Chairman Robert E. Hampton, the President declared "discrimination of any kind based on factors not relevant to job performance must be eradicated completely from Federal employment."

In outlining the steps to be taken to assure equal employment opportunity, the President stated:

(1) We must, through positive action, make it possible for our citizens to compete on a truly equal and fair basis for employment and to qualify for advancement within the Federal Service.
(2) Assuring equal employment opportunity in a Federal department or agency is the responsibility of the organization's head and must have a continuing high priority.
(3) Equal employment opportunity must become an integral part of the day-to-day management of Federal agencies, and interwoven with every action having an effect on employees.
(4) While we must continue to search out qualified personnel from all segments of our population, we must also assure the best possible utilization of the skills and potential of the present work force. Those who have the potential to serve at the supervisory level and above should be identified and given the opportunity to develop to their fullest capability.
(5) Special efforts must be made to assure that opportunities in the Federal Government at the professional levels are made known to men and women of all races, religions and ethnic backgrounds so that more positions of leadership can be assumed by persons from all segments of our population.
(6) Every possible step must be taken by agency heads to make sure that each manager and supervisor in the Government understands and implements the objective of equal employment opportunity for all Americans.
(7) The Government, as a responsible employer, must do its part along with other employers to provide special employment and training programs to those who are economically or educationally disadvantaged. We must hold out a helping hand and imaginatively use the facilities of the Government to prepare such persons for useful and productive employment.

To implement the program outlined in the new Executive order, Chairman Hampton designated CSC Executive Director Nicholas J. Oganovic as Coordinator for the Government-wide EEO program. To assist Mr. Oganovic, James Frazier, Jr.

has been named Director, Office of Federal Equal Employment Opportunity.

Because Executive Order 11478 was issued in August 1969, less than four months prior to the as-of-date of this minority group employment census, its impact on the 1969 data is necessarily limited. It is included here because it lays the base line against which future studies of this type will be measured.

Like its predecessors, the first of which appeared in 1961, this report is intended primarily for use by those who manage the Federal civilian work force. It is hoped, however, that it will prove useful to those without managerial responsibility but who are concerned with the nature of and changes in the composition and structure of the Federal work force. The statistical data and analyses presented herein are directed at such questions as: What is the size and geographic distribution of the Federal civilian work force? What is the extent of minority group representation? How is this work force paid? How does the pay of its minority group employees compare with that of its non-minority group employees? Is there evidence of upward mobility among its minority group employees?

Included in this census are Negroes, persons with Spanish surnames, American Indians, Orientals, Aleuts, and Eskimos. (The inclusion of the statistics on Aleuts and Eskimos in the state of Alaska is an innovation of the 1967 study.) All pay systems are represented as are all states, foreign countries and territories, except the State of Hawaii and the Commonwealth of Puerto Rico. Foreign nationals overseas are excluded, as are all employees not in a full-time status as of November 30, 1969.

In surveys conducted prior to 1966, information was gathered in all areas for Negroes, but only in certain states and standard metropolitan statistical areas for other minority groups. The designation "Spanish-Surnamed" as used in this report refers to persons who are of Mexican, Puerto Rican, Latin American, or other Spanish-speaking origins (including persons of Spanish-speaking background whose surnames are no longer Spanish due to marriage or other reasons). This differs somewhat from the designations used in some of the previous surveys. The designation "Spanish American", used in the 1967 survey is roughly equivalent to that used in the 1969 survey. It included persons of Mexican American and Puerto Rican, as well as those of other Latin American or Spanish origin or ancestry.

Minority group designations are based on the visual observations of the supervisors, and their knowledge of what each individual employee considers himself to be or is regarded to be in the work environment or the community. While the limitations of this procedure are recognized, it is considered to be among the best of those adjudged to be both operationally and economically feasible.

Finally, this is the first report in which any effort has been made to analyze Federal employment data for minority groups and interpret its meaning on a national basis.

It is hoped that the data contained herein will provide answers to at least some of the questions raised above and such others as may arise more or less naturally in connection with a census of this type. Toward that end data are included for the first time for each minority group by department and selected agency, and the number of Standard Metropolitan Statistical Areas (SMSA's) has been expanded from 41 in the 1967 study to 75 in the present one. Detailed tables showing minority employment data by grade (or other pay level) are also included for the first time since we began publication of minority data.

1969 HIGHLIGHTS

° Negroes, Spanish-surnamed Americans, American Indians, and Oriental Americans are moving upward in Federal jobs. They now hold more of the better paying jobs than they have held in any previous period covered by a minority survey. For example, at grades GS-9 through 11, the number of Negroes increased by 29 percent (3,687); the number of Spanish-surnamed Americans by 25 percent (917); the number of American Indians by 28 percent (318); and the number of Oriental Americans by 19 percent (501). Corresponding increases at grades 12 through 15 were: 41 percent (1,859) for Negroes; 45 percent (649) for Spanish-surnamed Americans; 28 percent (135) for American Indians; and 31 percent (546) for Oriental Americans.

° Although total Federal civilian employment declined by some 20,000 positions between the November 1967 and November 1969 surveys, there was a slight increase (about 4,000) in the number of minority employees in Federal jobs. This is primarily a reflection of the 4,600 Spanish-surnamed Americans added to the work force since November 1967.

° As of November 30, 1969, minority group employees held 501,397, or 19.3 percent of the 2.6 million full-time Federal jobs. Of the 19.3 percent, 15.0 percent are Negroes, 2.8 percent are Spanish-surnamed, 0.6 American Indians, 0.8 Oriental Americans, and 0.03 Aleuts and Eskimos in Alaska.

° Within the General Schedule and similar pay systems, all Civil Service regions reported upward movement of minority employees.

° In grades 5 through 15 of the General Schedule and similar pay systems, the numbers of minority employees increased at a rate three to five times the rate for non-minorities, due in part to the extension of recruiting efforts to additional sources of minority candidates and in part to the promotion of minority employees already on the rolls.

° In nearly a third (5) of the 16 largest agencies which account for 97 percent of the total work force, 20 percent or more of all minority group employees paid at General Schedule rates are above the GS-9 level. In 2 of these 5 agencies (National Aeronautics and Space Administration and Transportation) the proportion is well over 25 percent.

° Eighty-two percent of all minority employees in the Federal civilian work force work in 75 Standard Metropolitan Statistical Areas (SMSA's).

° In those 75 SMSA's, 64 percent of those minority group employees paid at General Schedule and similar rates are at or below GS-5; 58 percent of those paid Wage System rates earn less than $7,000; 91 percent of those paid Postal Field Service rates are at or below PFS-5; and 65 percent of those paid "all other" rates earn less than $8,000. The corresponding proportions for non-minority group employees are: 30 percent for those paid at General Schedule and similar rates; 24 percent for those paid Wage System rates; 82 percent for those paid Postal Field Service rates; and 30 percent for those paid "all other" rates.

° Thirty-six percent of all minority group Federal employees are paid General Schedule or similar rates. Of the remaining 64 percent, 32 percent are paid Postal Field Service rates and 31 percent Wage System rates. The remaining one percent are paid a variety of rates, all different from the three previously cited ones.

SIGNIFICANT PROGRAM CHANGES SINCE 1967

Since the 1967 survey, two events that have had or will have a significant impact on the Federal civilian work force have taken place. They are: the Revenue and Expenditure Control Act of 1968 and President Nixon's Executive order on equal employment opportunity. The major intent of each of these events and their gross impact on these data are summarized below.

Effect of Revenue and Expenditure Control Act (Public Law 90-364)

In June of 1968, Congress imposed controls on employment. The nature and scope of those controls are set forth in the Revenue and Expenditure Control Act of 1968. This Act provided for a reduction in full-time employment in permanent positions by restriction of accessions in each agency to a portion of its separations. Certain types of accessions, however, were exempt. For example, disadvantaged youths and certain intermittent employees were excluded from these controls.

Although certain agencies were subsequently excluded from the controls, the objective of the Act was accomplished. That is, total employment was reduced. Following the repeal of the Act, the Bureau of the Budget applied administrative controls which had the effect of continuing the ceilings. Thus, the 1969 data reflect both the reduction in employment since June 1968 and the revision of priorities by the new administration.

Executive Order 11478, Equal Employment Opportunity in the Federal Government

Presidential Executive Order 11478 (August 8, 1969) further strengthened the Federal Government's continuing program to provide equal opportunity in employment for all persons, regardless of race, color, religion, sex, or national origin. Some of the action areas delineated for departments and agencies were: the provision of adequate resources to positively administer the equal employment opportunity program; the recruitment of job candidates from all sources; maximum utilization and improvement of employee skills to enhance their upward mobility; training and advice to supervisors to assure understanding of the policy of the Executive order; and department and agency implementation of a system for periodically evaluating the effectiveness with which the policy of the order is being carried out.

Further, the order instructed the Civil Service Commission to provide leadership and guidance in the conduct of equal opportunity programs, including the periodic review and evaluation of agency program operations; the impartial consideration of all complaints of discrimination based on race, color, religion, sex, or national origin; and the issuance of necessary and appropriate regulations and instructions.

Action Taken Since Executive Order 11478 Was Issued

Since Executive Order 11478 was issued in August 1969, there has been a consolidation and strengthening of the Civil Service Commission's organization

for equal opportunity by the establishment of an Office of Federal Equal Employment Opportunity. Some of the actions taken to assure EEO are:

° Full-time EEO representatives have been designated in each Civil Service Commission Regional Office to work directly with agencies on EEO problems.

° Federal agencies have been directed to develop affirmative action plans in sufficiently specific detail to carry out the new directions in equal employment opportunity.

° Agencies have submitted EEO action plans; we have reviewed them; and these plans are now being used to measure agency performance.

° We have instructed agencies to develop and implement incentive programs to stimulate and encourage exceptional performance among supervisors, managers and others in achieving EEO.

° We have directed agencies to include in the ratings of supervisors an evaluation of their performance in the area of equal employment opportunity so that a measure can be made of their commitment to action in this area.

° New training programs on equal employment opportunity aimed at supervisors have been inaugurated. Two training films on EEO are now being produced.

° For the first time, agencies have been authorized to maintain statistics on minority employment in ADP systems.

° To assure closer monitoring of progress, the biennial reporting requirement has been changed so that agencies now report at six month intervals.

° Minority employment data are now published by each grade or salary level in each pay system as well as by grade groupings.

° To facilitate upward mobility of lower level employees, a major thrust of the new EEO directions, Federal agencies have been provided comprehensive guidance on training and other techniques designed to assist employees to quality for higher level jobs.

° A new cooperative work study program has been established for the purpose of involving students, from predominantly minority schools, in Federal programs, with an opportunity for permanent employment upon graduation.

° New self-evaluation guidelines are being issued to agencies so that they may evaluate their own EEO progress. Meanwhile, the total evaluation effort is being buttressed by stepped up inspection activity by the Civil Service Commission.

° New procedures for handling discrimination complaints have been issued. Because of the strong emphasis on informal resolution and employee counseling, there has been an increase in corrective actions taken and a significant decrease in formal complaints.

- Special programs have been undertaken to facilitate the employment of returning Vietnam veterans who have minimum education and training.

- Additionally, we have inaugurated a Public Service Careers program to help educationally disadvantaged persons to receive the training needed to qualify for Federal employment.

397-650 O - 70 - 2

SUMMARY AND ANALYSIS OF 1969 SURVEY FINDINGS

General

Negroes, Spanish-surnamed Americans, American Indians, and Oriental Americans as a group comprise 19.2 percent of the full-time Federal civilian work force and are spread throughout the United States (Hawaii was not surveyed). Nevertheless, 82 percent of the entire minority group component of the Federal civilian work force is located in 75 Standard Metropolitan Statistical Areas (SMSA's), where they comprise 25 percent of the work force. Because nearly 93 percent of all minority employees in the Federal civilian work force are either Negro or Spanish surnamed, separate data and analyses are included in the narrative portion of this report for each of these two groups.

Slightly more than 36 percent of all minority group employees are under the General Schedule or a similar pay system. About a third are blue-collar workers who are paid under various Wage Systems, and all but 0.8 percent of the remainder are under the Postal Field Service pay system. (See text table below.) For a comparison of the distribution of the total work force and its minority component by pay system, see Chart 1.

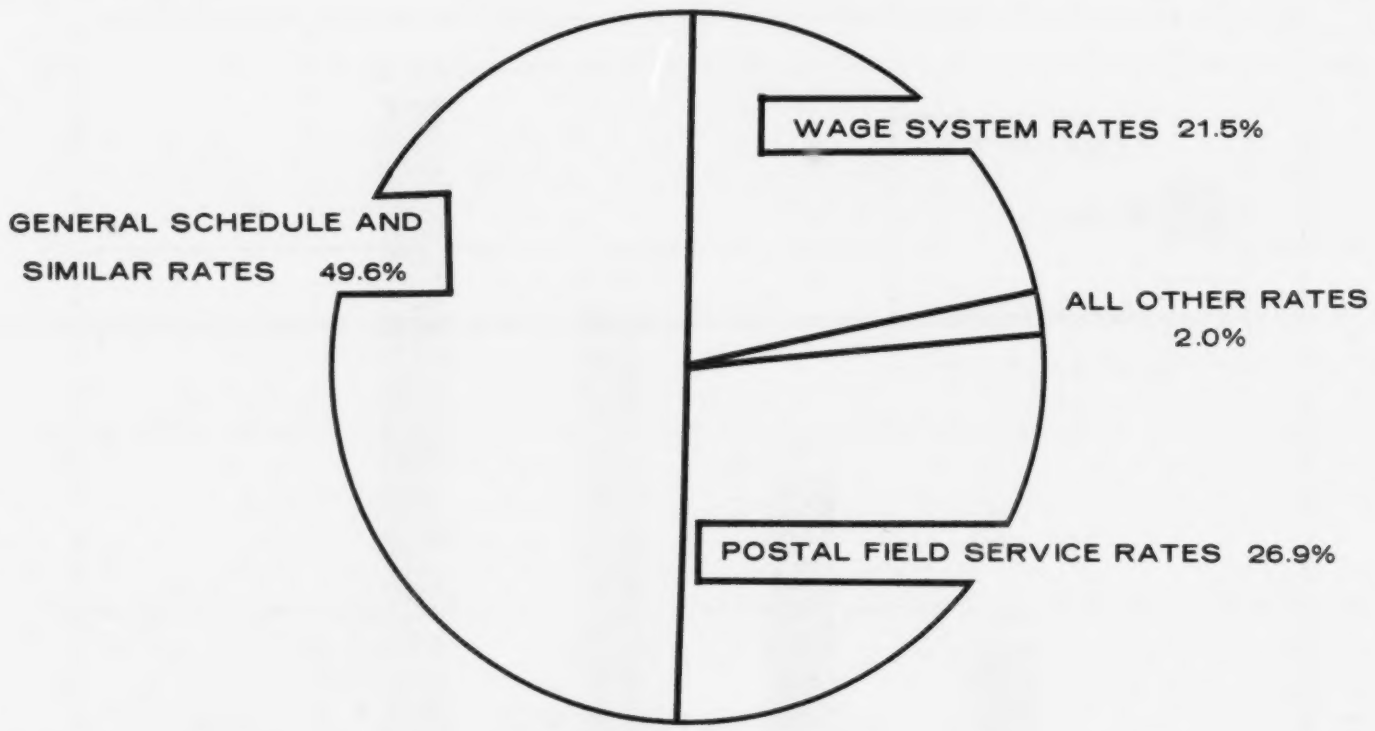
While there is evidence of significant upward movement (see Charts 2, 3, and 4), the majority of all minority group employees are concentrated in the lower income brackets of each pay system. For example, over 63 percent of all minority group employees under the General Schedule or a similar pay system are at the GS-5 level or below, as contrasted with about 32 percent for non-minority group employees. (See Chart 5 on page 11.) Similarly, over 57 percent of all minority group employees paid under Wage Systems earned less than $7,000 as of November 30, 1969, as compared to 27 percent for non-minority group employees.

DISTRIBUTION OF ALL MINORITY GROUPS COMBINED, BY PAY CATEGORY, AS OF NOVEMBER 30, 1967 AND 1969

Pay System	1967		1969		Percent Change in Number of Employees
	Number	Percent	Number	Percent	
All Pay Systems	496,672	100.0	500,508	100.0	0.8
General Schedule and Similar	173,951	35.0	181,725	36.3	4.5
Wage Systems	166,506	33.5	155,744	31.1	-6.5
Postal Field Service	151,602	30.5	158,945	31.8	4.8
All Other	4,613	0.9	4,094	0.8	-11.3

CHART 1-- DISTRIBUTION OF THE TOTAL FEDERAL WORKFORCE AND ITS MINORITY GROUP COMPONENT, BY PAY SYSTEM, AS OF NOVEMBER 30, 1969

TOTAL FEDERAL EMPLOYEES PAID AT:



MINORITY GROUP FEDERAL EMPLOYEES PAID AT:

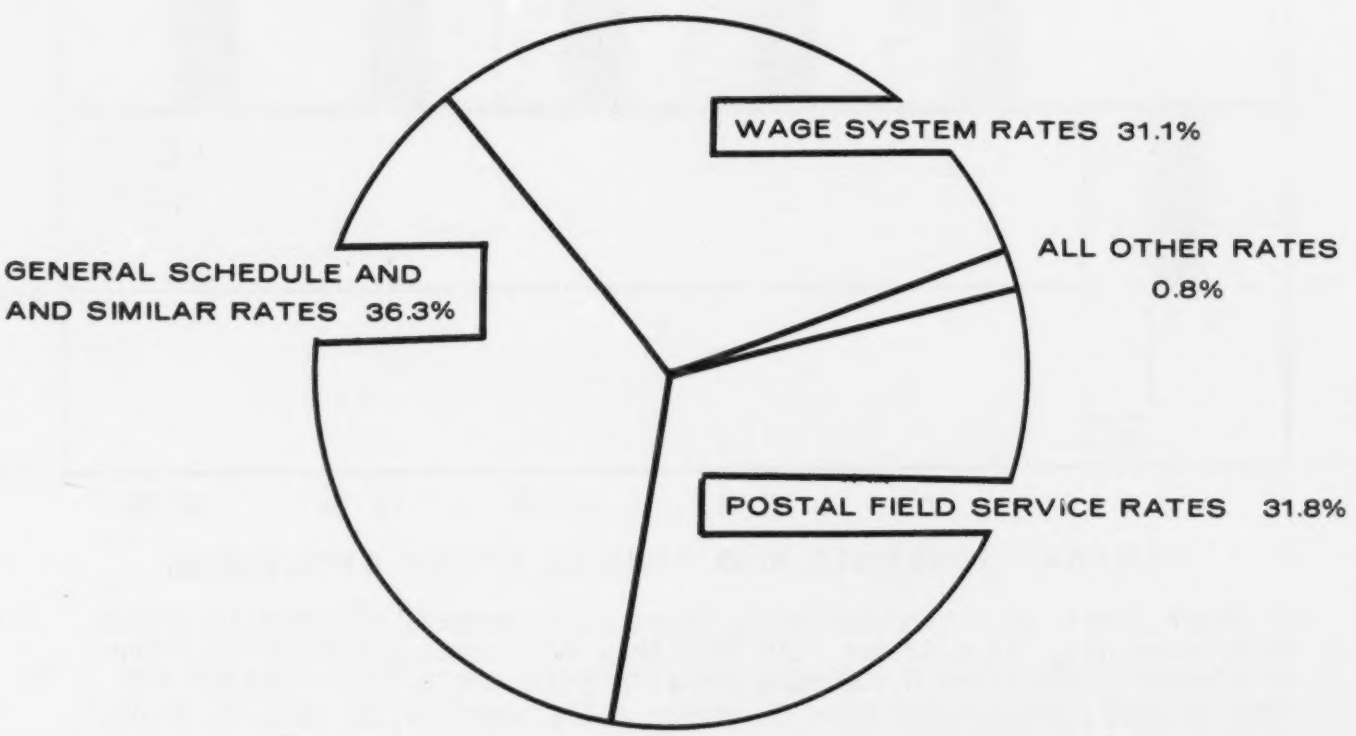


CHART 2-- PERCENTAGE INCREASE OR DECREASE IN THE NUMBER OF MINORITY AND NON-MINORITY EMPLOYEES BETWEEN NOVEMBER 1967 AND NOVEMBER 1969 BY GRADE GROUPING

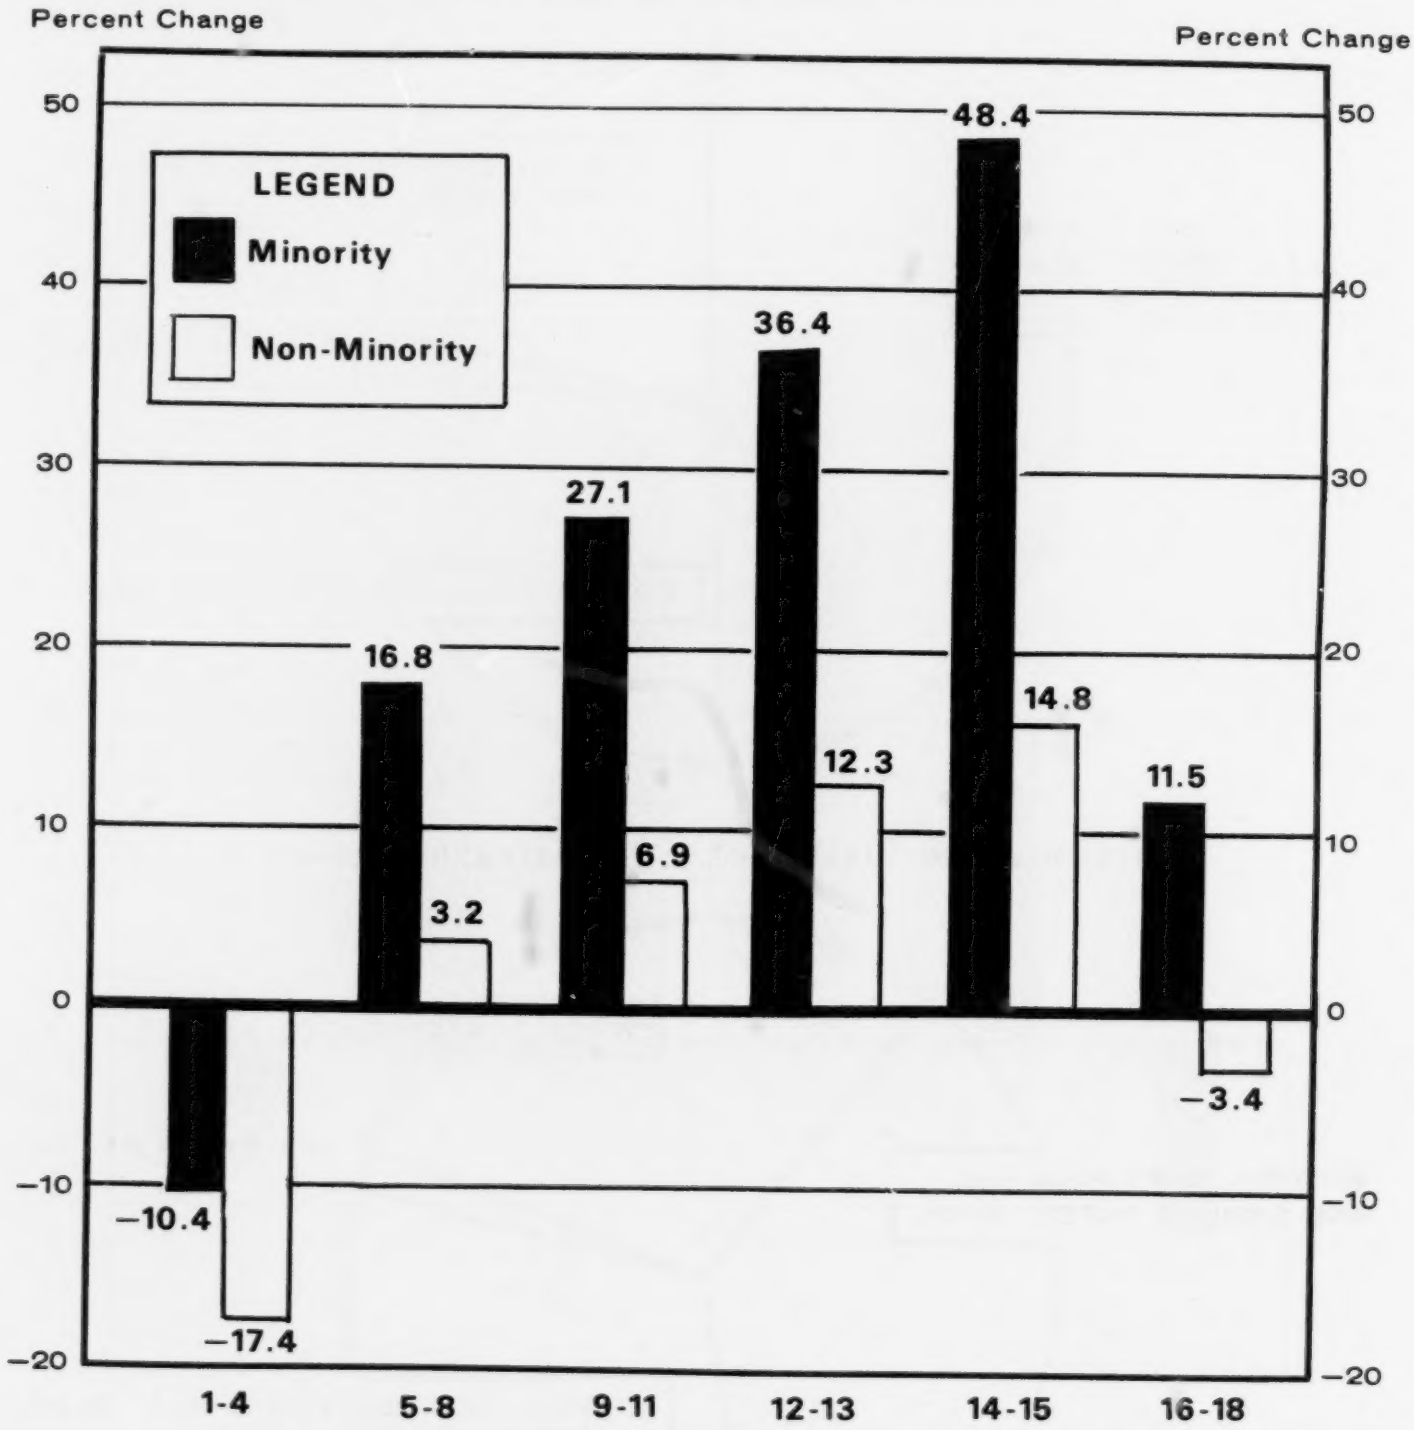
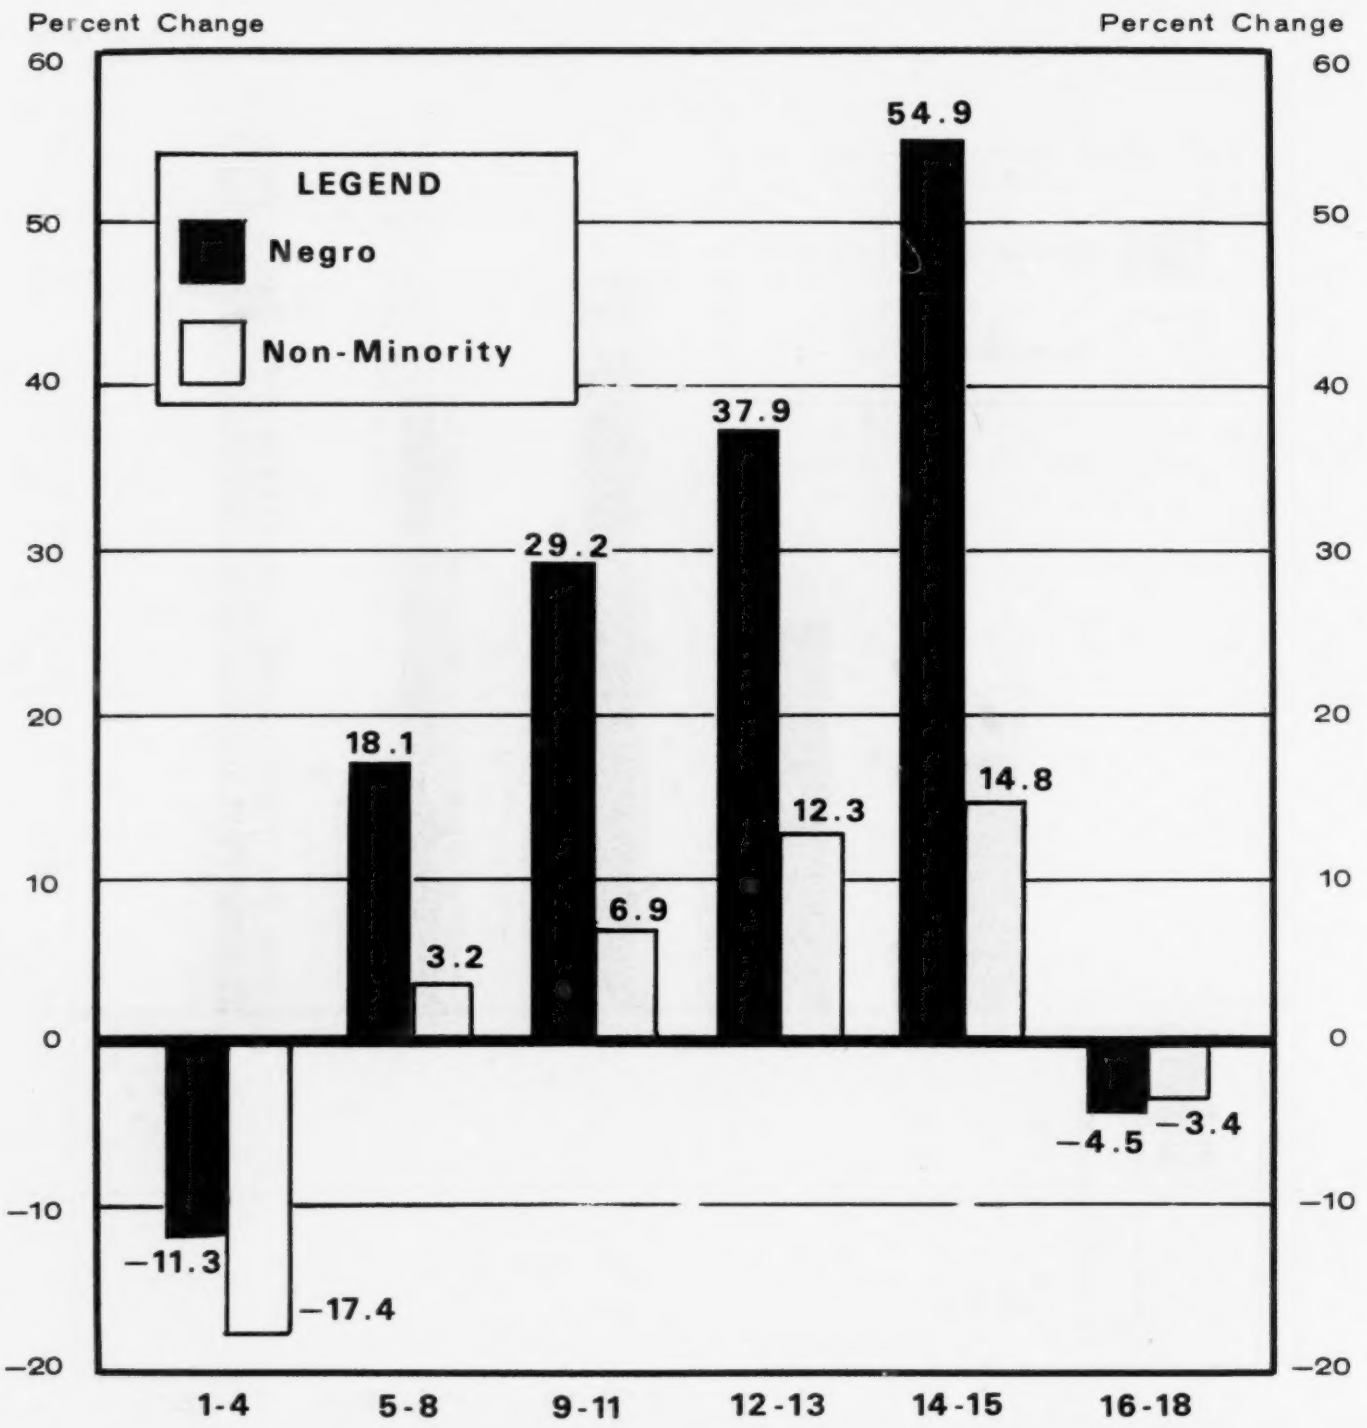


GENERAL SCHEDULE AND SIMILAR GRADE GROUPINGS

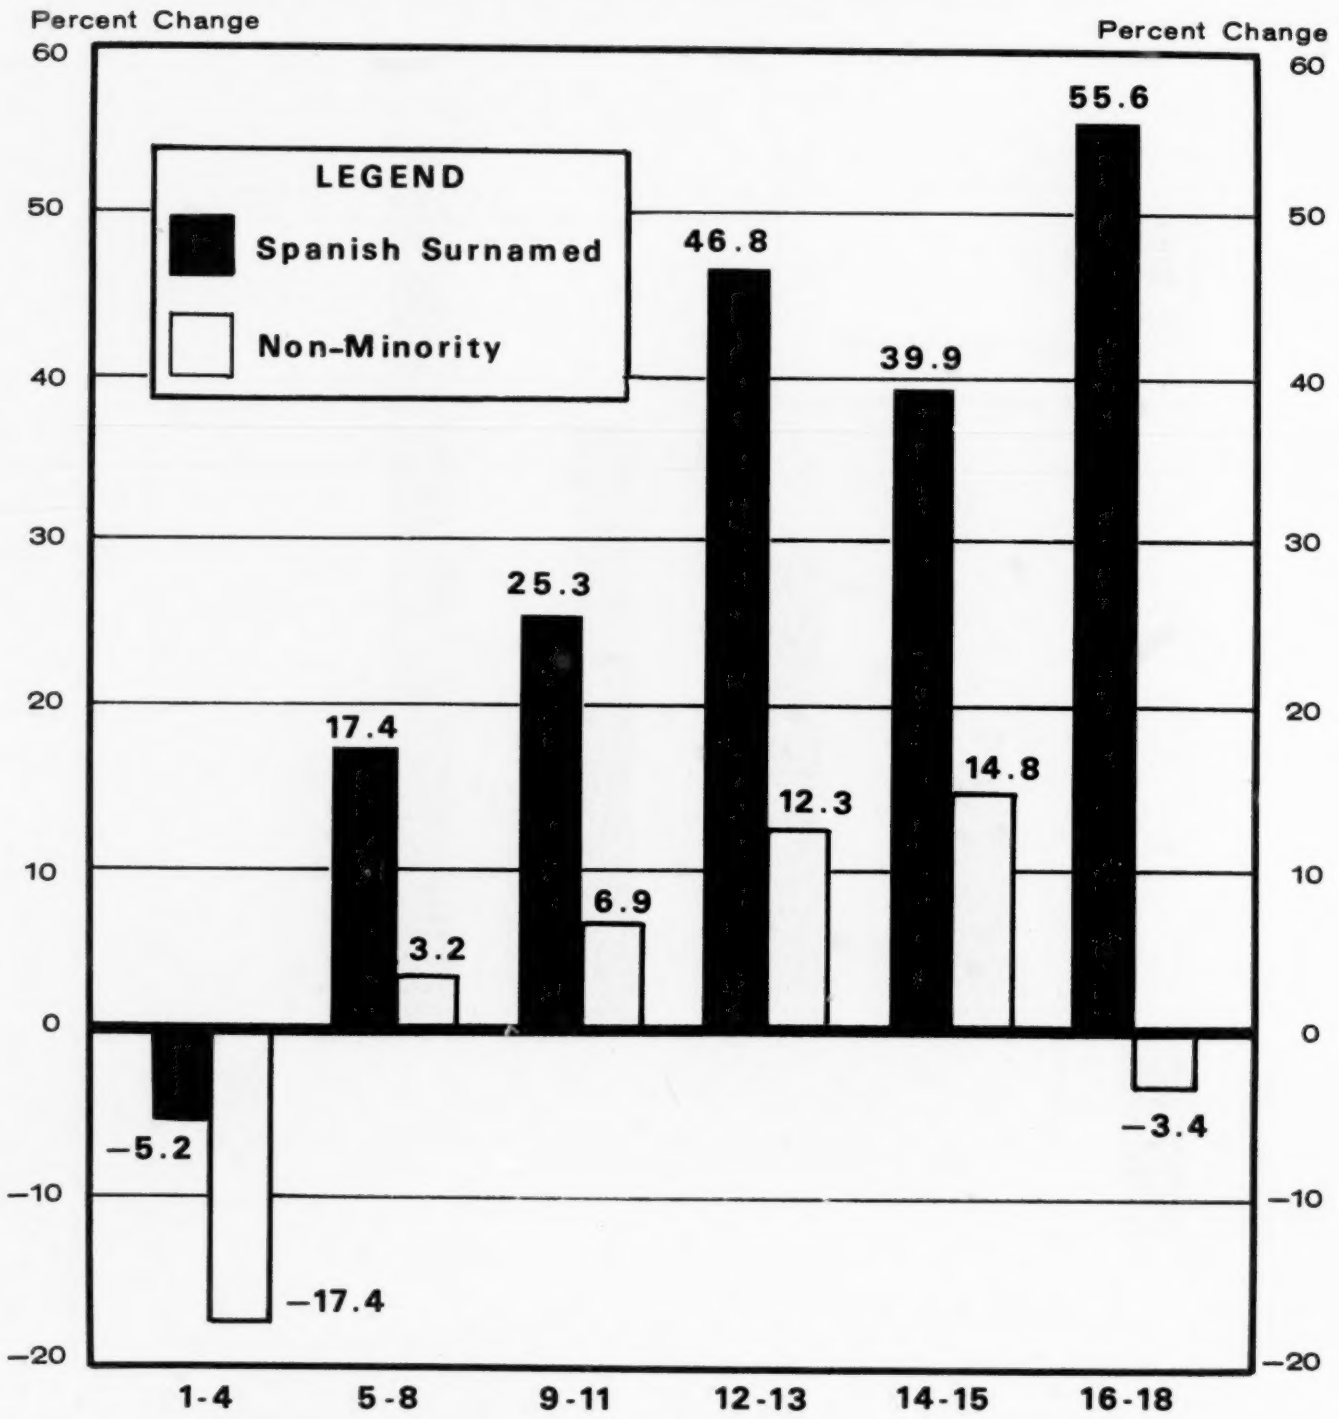
At grade levels GS-5 through GS-15, gains among members of minority groups have taken place at a faster rate than they have among non-minority groups. As a result, there are 8,800 more minority group employees in grades 5-8 than in 1967, about 5,400 more in grades 9-11, nearly 2,500 more in grades 12-13, and 721 more in grades 14-15.

CHART 3 -- PERCENTAGE INCREASE OR DECREASE IN THE NUMBER OF NEGRO AND NON-MINORITY EMPLOYEES BETWEEN NOVEMBER 1967 AND NOVEMBER 1969 BY GRADE GROUPING



At grade levels GS-5 through GS-15, gains for Negro employees have taken place at a faster rate than they have among non-minority groups. As a result, there are 7,300 more Negro employees in grades 5-8 than in 1967, about 3,700 more in grades 9-11, nearly 1,500 more in grades 12-13, and 382 more in grades 14-15.

CHART 4 -- PERCENTAGE INCREASE OR DECREASE IN THE NUMBER OF SPANISH SURNAMED AND NON-MINORITY EMPLOYEES BETWEEN NOVEMBER 1967 AND NOVEMBER 1969 BY GRADE GROUPING



At grade levels GS-5 through GS-15, gains among Spanish surnamed employees have taken place at a faster rate than they have among non-minority groups. As a result, there are 1,250 more Spanish surnamed employees in grades 5-8 than in 1967, about 1,000 more in grades 9-11, 500 more in grades 12-13, and 133 more in grades 14-15.

13

Federal Employment in the United States

In November 1969, 98 percent, or some 2,550,000 of the 2.6 million full-time Federal civilian employees were located in the United States. Approximately 12,650 of these were in Alaska. Of the 501,000 minority employees, almost 99% were in the United States.

In the United States minority group employees account for 19.4 percent of the Federal civilian work force; however, in the 75 Standard Metropolitan Statistical Areas surveyed the corresponding percentage is 24.2.

The proportion of the Federal work force located in each of the states ranges from 0.1% in Vermont to 11.8% in California, with the majority of states (33) having 2.0% or less of the total employment. Some areas, however, have substantially more. For example, California (11.8%); District of Columbia (7.0%); New York (6.6%); Texas (5.6%); Pennsylvania (5.4%); Virginia (5.2%); Maryland (4.5%); and Illinois (4.2%). Although half of all United States employment is located in these seven states and the District of Columbia, they contain an even larger proportion of certain minority groups. Eighty-two percent of all Orientals in the Federal civilian work force are located in these 8 areas. The corresponding proportions for Spanish surnamed, Negroes, and American Indians are 73%, 66%, and 14%, respectively.

Minority group employees in white-collar occupations numbered 340,500 in November 1969, up by 14,500 (4.4%) from 1967. During this 2-year interval the proportion of minority employees in white-collar jobs increased from 64.4 to 68.8 percent. Although gains were largest under General Schedule and similar systems (7,710), the 4.5 percent increase under these pay plans was slightly below the 4.8 percent in the Postal Field Service. The latter increase represents 7,342 additional employees. Minority employment in the "other pay plans" category numbered 2,929, about 600 below 1967.

Minority group employees in blue-collar occupations, reflecting the general decline among these occupations, decreased by some 10,500 between 1967 and 1969. Geographically, most of the 10,500 decrease in blue-collar jobs held by minority group employees occurred in California, the District of Columbia, Virginia, Pennsylvania, Maryland, and Washington. Approximately one-third of minority group employees in the United States are blue-collar workers.

Despite the effect in most states of a downward trend in trades, crafts, and laboring occupations, sizable overall gains were reported in Virginia (10,731), Florida (2,754), and Indiana (1,685). Increases between 1,000 and 1,400 occurred in Arkansas, Mississippi, Michigan, Maryland, and Wisconsin. Minority groups accounted for 14% of the 21,000 employees added in these states. Most were appointed in Virginia and Maryland to jobs paid at General Schedule and similar rates.

Civil Service Regions

Geographically, the functions of the Civil Service Commission are administered by the central office through 10 regional offices. Ordinarily, the Washington, D. C., SMSA is included as part of the Philadelphia Region. For purposes of this report, however, the Philadelphia Region totals exclude the Washington, D. C., SMSA, which is used interchangeably with the central office area.

Approximately half of all Federal civilian employees in the United States are located in 4 Civil Service regions; namely, the Chicago, Atlanta, San Francisco, and Philadelphia Regions. Nearly a fourth of all Federal employees in the United States and about 30 percent of those belonging to a minority group are located either in the central office area or the Philadelphia Region. Similar concentrations of minority employees are apparent in the Chicago, San Francisco, and Dallas Regions (see text table below).

DISTRIBUTION OF FEDERAL CIVILIAN EMPLOYMENT BY MINORITY GROUP STATUS AND CIVIL SERVICE REGION a/, NOVEMBER 30, 1969 (IN THOUSANDS)

Civil Service Region	Total Employment	Minority Group Employment				
		Total	Negro	Spanish Surnamed	American Indian	Oriental
All Regions b/	2,261.7	414.7	310.9	71.3	16.0	16.4
Atlanta	318.5	44.2	41.9	1.6	0.5	0.2
Boston	120.1	4.9	4.4	0.2	0.1	0.2
Chicago	353.1	75.9	73.5	1.3	0.3	0.7
Dallas	239.5	54.7	23.4	27.8	3.1	0.3
Denver	132.5	26.4	4.0	15.1	6.7	0.7
New York	235.4	50.4	43.0	6.7	0.1	0.6
Philadelphia	293.8	59.8	58.8	0.5	0.1	0.4
St. Louis	156.1	17.2	14.8	0.8	1.4	0.3
San Francisco	308.7	74.3	44.1	16.8	1.6	11.8
Seattle	103.9	6.9	3.1	0.5	2.1	1.3
Central Office (Wash., D. C., SMSA)	288.5	80.2	77.0	1.3	0.4	1.4

a/ Civil Service regions are defined in Appendix Table 5-1.
b/ Detail may not add to total, due to rounding. Excludes central office area, which is shown separately.

The proportion of all minorities in each region at GS-5-8, 9-11, 12-13, and 14-15 was larger in 1969 than in 1967. (See text table below.) For the central office and the Civil Service regions, 1969 minority employment under the General Schedule and similar systems was 178,710, an increase of 7,713 from November 1967. The increase centered in the Washington metropolitan area, up 4,546. Although most of this increase was within grades 5-8, sizable increases also occurred at grades 9-11 (1,443) and 12-13 (735). The Philadelphia Region shows 1,400 more minority employees paid at General Schedule and similar rates, and Dallas and Atlanta, each about 1,100 more. Regional decreases in minority employment under this pay system were relatively small -- about 500 each in Chicago and New York, and about 300 in St. Louis.

Negroes make up slightly more than one-fourth (26.7%) of the central office area's work force. In the 10 regions, the largest corresponding proportions were reported for: Chicago (20.8%), Philadelphia (20.0%), and New York (18.3%). Spanish-surnamed Americans make up 11.6% of the Dallas Region's work force and 11.4% of that for the Denver Region. Similarly, American Indians make up 5.0% of the Denver Region's work force and Oriental Americans 3.8% of the San Francisco Region's work force.

1967-1969 INCREASES IN THE NUMBER OF MINORITY GROUP EMPLOYEES PAID AT GENERAL SCHEDULE AND SIMILAR RATES, BY CIVIL SERVICE REGION AND SELECTED GRADE GROUPINGS

Civil Service Region	1967-1969 Increases in Minority Group Employment at GS Grades: 5-8		9-11		12-13		14-15	
	Number	Percent Increase	Number	Percent Increase	Number	Percent Increase	Number	Percent Increase

Standard Metropolitan Statistical Areas (SMSA's)

In 1967, the Minority Group Employment Census covered 41 SMSA's. The 1969 census covered an additional 34. The presentation which follows is based on those SMSA's covered in both years, except where otherwise indicated. The 41 SMSA's covered in both years are shown in tables in appendix 5.

Since 1967, full-time Federal civilian employment in the United States has decreased by 19,750. In the 41 SMSA's surveyed, there are now some 16,400 fewer employees, see Appendix Table 5-3. Despite this net decline, minority employment in these areas increased by nearly 4,600, mostly among Spanish surnamed.

The largest decrease, 9,244, occurred in the New York City SMSA. Most of this decrease was reported by the Post Office, the Department of Health, Education, and Welfare, the Department of Transportation and by the Treasury and the Navy Departments.

The SMSA for which the next largest decrease was reported was the San Francisco-Oakland, Calif., SMSA, which reported a net decline of 4,600. These were mostly blue-collar workers employed by the Navy Department. Decreases of about 2,500 employees were reported for the following SMSA's: Norfolk-Portsmouth, Va. (2,873); Detroit, Mich. (2,617); Washington, D. C.-Md.- Va. (2,595); Los Angeles-Long Beach, Calif. (2,535); and Newark, N. J. (2,487).

The Department of the Navy accounted for most of the decrease in the Norfolk-Portsmouth and Los Angeles-Long Beach SMSA's. Decreases in the Detroit and Newark areas were due primarily to fewer Postal employees. In the Washington, D. C., metropolitan area, the larger losses were reported by the Air Force and the Department of State.

As previously indicated, SMSA coverage was expanded from 41 to 75 in the 1969 Minority Census. The remainder of the presentation in this section is based on full-time Federal civilian employment in the 75 SMSA's covered by the 1969 Minority Census. Selected employment data are shown for each of the 75 SMSA's in Appendix Table 5-2.

Slightly more than 65 percent of all full-time Federal civilian employees in the United States and 83 percent of the minority component of this work group are located in these 75 SMSA's. These minority group employees hold about 25 percent of the Federal civilian jobs in those SMSA's, as compared to 19.4 for the total United States.

There is considerable diversity in the size of the SMSA's as measured by the level of Federal civilian employment. Though most of the 75 SMSA's have fewer than 10,000 Federal civilian employees, the range is from 1,942 to 288,490. Within this range, minority employment increases in direct proportion to the size of the SMSA. For example, in those SMSA's with fewer than 10,000 Federal employees, the percentage of minority group employment is 17.8. At 50,000 and above the percentage is 30.9, see text table, following page.

DISTRIBUTION OF FEDERAL CIVILIAN EMPLOYEES IN 75 SELECTED STANDARD METROPOLITAN STATISTICAL AREAS, BY MINORITY GROUP STATUS AND SIZE OF SMSA, AS OF NOVEMBER 30, 1969

Size of SMSA (No. of Federal Employees)	Total Employment	Minority Employees		Non-Minority Employees	
		Number	Percent	Number	Percent

50,000 and above	713,459	220,321	30.9	493,138	69.1

Departments and Selected Agencies

Slightly more than 90 percent of all Federal civilian employees work for the 6 largest departments and the 3 largest independent agencies. These same departments and agencies also employ 92 percent of the total minority component of the Federal civilian work force.

a/ Components may not add to 100.00 percent because of rounding.

The 12 executive branch departments of the Government and the 17 selected agencies (see page 21) employ 99 percent of the Federal civilian work force. Of those 29 agencies, 14 employ a greater proportion of the overall minority component of the work force than they do of the total work force. For example, the Post Office Department employs 27 percent of the total work force and nearly 32 percent of the minority component of the work force.

Income of the Work Force

Nearly 41 percent of the increase (19,055) in General Schedule employment was due to the increase in minority group employment. Although the largest increase (46 percent) occurred at the GS-5 through 8 levels, significant increases were reported for the higher levels. At the GS-9 through 11 levels, minority employment accounted for 22 percent of the increase. At the GS-12 through 13 levels minority employment contributed 10 percent or 2,468 of the 24,700 additional jobs at those levels. At the GS-14 through 15 levels, increases among minority group employees were almost 8 percent of the total increase. At the executive levels of the career service, grades GS-16 through 18, there was a net decrease of 173 positions, from 5,492 to 5,319. In contrast, minority group employment increased by 10, from 87 to 97.

Among the 28 agencies shown on the following page, the proportion of minority group employees under the General Schedule pay system that are above the GS-9 level varies from 0.5 percent to 46.3 percent. In more than a third (10 agencies), the proportion is 20 percent or more. In 5 of the 10 (National Areonautics and Space Administration, Commission on Civil Rights, Equal Employment Opportunity Commission, Office of Economic Opportunity, and Transportation), the proportion is 30 percent or more.

Although 27 percent of the non-minority blue-collar workers earned less than $7,000 per year as of November 30, 1969, the proportion of minority group blue-collar workers earning less than $7,000 was 57 percent. In the $7,000 to $9,999 pay range, minority group blue-collar employees constitute 20 percent of all blue-collar workers, up from 14 percent in 1967. In the $10,000 and above pay bracket, there are about 4,500 minority group blue-collar workers. This represents 8 percent of all such Federal workers, as compared to 532 or 3.8 percent of all such Federal workers in 1967.

Although the overall increase in Postal Field Service employment was slight (less than 0.03%), minority group employment in the Postal Field Service is up 4.8 percent (7,300 employees) as compared to 1967. It should be noted here that Public Law 90-206 (December 16, 1967) authorized an increase from 20 to 21 levels in the Post Field Service. Comparisons shown in this report take this into account. For example, the 1967 equivalent of the current PFS 1-5 is PFS 1-4. Fourth Class Postmasters and Rural Carriers are included in this grouping for both years. Over one-half (58 percent) of the gains by minority group employees have taken place at the PFS-6 through 9 levels. Additionally, minority group employees accounted for 56 percent of the increase at the PFS-10 through 12 levels.

Total employment under all other pay systems decreased by 8.9 percent, from 56,895 in 1967 to 51,831 in 1969. Similarly, employment of minority groups decreased by 11.3 percent, from 4,613 to 4,094.
